

Vision and Mission

Vision

“Be the National Leading Telecommunications Service Provider”

Mission

- M1. Provide quality telecommunications and information technology services that satisfy customer needs through development and innovation.
- M2. Continuously expand both domestic and regional customer base and deliver good service experience.
- M3. Build human capacity and create corporate culture that promotes efficient operations.
- M4. Create appropriate return to the stakeholders as well as support government policy and social responsibility activity.
