

Vision

Be the nation leading telecommunication service provider.

Mission

1. Reform the corporate culture in order that teamwork is concentrated. Modify the corporate rules, regulations, and decision processes to be responsive to the business needs.
2. Deliver advanced technology services with quality, standard, and competitive pricing.
3. Enhance skill, efficiency, and capability of the organization to thoroughly serve the customers demands and the national developments.
4. Operate with efficiency, transparency, as well as social and national accountability.
