

Important activities

1 The company organized activities in 2015 National Children's Day. We offered lunch, donate sport equipment and children's toy to the students in the foundation of children with intellectual and brain disability (Baan Rachawadee), Pakkred district, Nonthaburi province. The activities for children's happy experience were based on the concept "Thai Children with IT heart, Year 2015", comprising "CAT Amusement Park" with every kind of children's playthings, game and souvenir corners, including unlimited free internet zone. The highlight at the end of the event was the impressive mini concert of popular artist "Kaengsom the Star" with the scream of joy of his fans.

2 We develop a smart electricity network (Smart Grid) in cooperation with Metropolitan Electricity Authority to initiate a comprehensive electricity management through digital technology which is a smart technology and new choice of IT and communication system to manage, control its production, and generate power, including connect electricity system.

3 We open Miracle Eyes Project (2nd phase) in cooperation with metropolitan police bureau to install CCTV to protect and prevent crimes in taxi cars, parks, walking roads, and isolate places. This aims to be a pilot project of criminal case reporting system through CCTV, a new dimension of information technology in reporting with pictures which help prevent and reduce criminal suppression, and improve inspection tasks of 88 Metropolitan police offices to be more efficient. Miracle Eyes system will be operated through high-speed internet at the minimum speed of 2-3 MB.

4 The company, in cooperation with SF Corporation Public Company Limited opens a world-class luxurious movie theatre (2nd branch) to strengthen the image of communication network leader which is stable, modern and suitable to every entertainment lifestyle. This is a new way of promoting image of CAT along with creating premium entertainment experience to our customer group. We starts the project at the golden location – SF World cinema (Central world branch) to be the base of premium entertainment under the brand “CAT First Class Cinema”.

5 We organized foundation stone laying ceremony, creation of Buddha statue and Buddhasothorn tower as a charity project dedicated to the 60th anniversary of Her Royal Highness Princess Maha Chakri Sirindhorn and the 12th anniversary of CAT in front of Administration building 2, Chaengwattana Rd., Laksi district.

6

7

We sign a contract with Supatra Real Estate Co., Ltd. as a comprehensive service provider of the project at Maharaj port which will be the meeting point in Maharaj road, Rattanakosin Island, bordered by Chaopraya river.

8

The company opens Data Center Building with international standard with the investment more than 500 million Baht to establish a new data center under the name “CAT data center Nonthaburi II” specifically designed to be a data center to meet ever needs from this comprehensive service. With the highest stability, the system can deliver the mission critical service very well. This company project is given a Trusted Site Infrastructure certificate (TSI Certificate, Level 3).

9

The company coordinates with Xsense Information Service Co., Ltd., specializing in developing logistics software and being one of the leaders in this field. The purpose of this project is to develop satellite network to track fishing boats. The system mutually developed is entirely operated within CAT infrastructure. The boat information is kept at the main site which is Data Center of Nonthaburi, and Data Center of Sriracha will be a backup site of boat tracking. We are ready to improve Thai fishing system towards international standard.
